More About EFS Energy Inc.

Culture: Our company culture and flexibility are rare finds. In our world, we can get the work done and still enjoy an atmosphere of relaxed comradery. We know you perform better when your life and work are balanced. We believe being an employer means being a supportive force in the lives of our teammates.

Benefits: In addition to a comprehensive traditional benefits package that includes a Retirement Plan and Group Health, Dental, Vision, Disability, and Life Insurance, EFS offers competitive paid time off, flexible schedules, bonuses, and rewards. We seek to provide the most meaningful and helpful forms of innovative benefits for our team.

Growth: Through hard work, strategy, and the spirit to pioneer in the solar industry, we have developed a pattern of doubling our revenue year after year. As one of the oldest and most established solar companies in the Midwest, we are proud to still be locally owned and thriving. We have work to do and we need your help.

Career Opportunities: We want to attract and retain top talent. We will regularly discuss with you the ways you would like to grow in your career. We will meet your efforts with support in continuing education and flexibility in your schedule. By considering your strengths and desires, we will help you carve out the career you want.

Company History:

EFS Energy was founded in 2011 as a residential solar installer and has quickly grown into an industry-leading full-service solar contractor in the residential, commercial, and agricultural markets. We are headquartered in St. Louis, MO and have an office in Springfield, IL. We primarily install in MO, IL, and KS, but are always expanding our territory. We have an A+ rating with the BBB.
