

We support PV systems

Formerly Everest Solar Systems 

K2 Systems is the engineering leader for all your mounting system needs. We are the US division of an international company and we are a proud market leader with more than 16 GW installed worldwide. We have offices in Germany, England, France, South Africa, Italy, Brazil, Mexico, Australia and Slovenia. There are currently about 210 employees in our global company, but as we grow we need new talent to join our team of professionals and help take solar to the next level!

We are looking for a committed

PV Technical Trainer

Have you installed Solar PV on the roof? Are you excited to share best practices with others to ensure proper installation of K2 Systems mounting structures? We are looking for a new team member with installation experience and great people skills to train and support our clients. You will perform training on job sites as well as digitally with Zoom and Microsoft Teams. Also, you will provide classroom style training at client sites and events. You will be required to travel to various job sites, solar events and K2 offices throughout the US. We offer a full package with salary and benefits with the support of the best mounting systems team in the world!
