Pay: $20.00 - $30.00 per hour

Job description:

Solar Installer (Apprentice Electrician) Job Description

The solar energy industry is growing, and so is our team. We're looking for an ambitious apprentice electrician to install solar photovoltaic systems in northern Minnesota and Wisconsin on a full-time (not contract) basis.

At Wolf Track Energy, our mission is to help our customers reduce their power bills and carbon footprint while achieving energy independence. We design and install custom solar energy systems for homes, businesses, and more. We also install backup energy equipment and electric vehicle chargers.

We're a close-knit team that encourages new ideas and isn't afraid of taking the road less traveled. From our base in Two Harbors, Minn. We install solar systems across the woods, lake shores and hillsides that comprise the Northland.

If you're as excited about the future of renewable energy as we are, this may be the job for you.

Job Description:

- Installation of residential and commercial photovoltaic solar systems
- Installation of backup energy equipment, such as generators and batteries
- Installation of EV chargers
- Always ensure job site safety
- Ensure our customers receive an excellent customer experience
- Communicate with operations team on scheduling and system design
- Other relevant tasks as needed

Attributes:

- Excellent communication skills
- Attention to detail
- Willing to learn
- Organized
- Dependable

Qualifications:

- Basic understanding of photovoltaic solar equipment
- Proficient in Microsoft Word, Excel and basic computer skills
- Ability to read and understand blueprints
- Excellent customer service skills

- Valid Minnesota driver’s license with clean driving record
- Must pass a criminal background check and drug test
- Able to lift 50 lbs., climb ladders, work with tools and work on rooftops

Preferred but not required skills & experience:

- NABCEP certification
- OSHA-30 safety certification
- Previous experience on larger scale solar projects
- Familiar with PV analyzing equipment
- Equipment operating experience
- Knowledge of DAS systems
- Installation of 3-phase equipment
- Identify and mitigate safety hazards on the jobsite

Compensation:

- This position is full-time
- Hourly rate dependent on experience
- 40-hour work week
- Health, dental and vision insurance after 60 days
- Paid time off

Wolf Track Energy provides equal employment opportunities to all employees and applicants for employment without regard to age, race, sex, color, religion, national origin, mental and physical disability, genetic information, sexual orientation, gender, gender identity or expression, marital status, or any other applicable status protected by federal, state and/or local law.

Job Type: Full-time

Benefits:

- Paid Holidays
- Dental insurance
- Health insurance
- Paid time off
- Retirement plan
- Vision insurance

License/Certification:

- Driver's License (Required)
- RUI License
